HIADLOVEC CHEESE

Whole fat ripened cheese made from the raw unpasteurized milk of Braunvieh dairy cows. It has a characteristic scent and unique spicy flavour. Chemical analysis shows a similar volume of saturated fats to that of Italian Parmesan cheese. The cheese is supplied to the market at various levels of maturity, depending on the length of maturation (3 to 24 months). What applies to wine, it also applies to cheese – the older the better. Its quality will be appreciated by both – wine lovers as well as those who care for their health.
